

CleanMax

Darn Good Vacuums

CleanMax, we know vacuums. In fact, it's all we do. Just vacuums. Darn good vacuums.

We obsess over motor performance, machine durability and how to make

vacuums someone actually wants to use. Having the right tool for your vacuuming challenge makes all the difference. And we've got it in the CleanMax lineup.

CLEANMAX

ALL WE DO IS VACUUMS, AND THEY'RE DARN GOOD VACUUMS

Pro-Series Commercial Uprights

Pro-Series Nitro Commercial Upright

CMX-CMNRQD
MAP \$299.99

- 10 AMP Capped Motor
- HEPA Media Filtration
- Thermal and Pressure Activated Motor Protection
- Metal Handle Tube
- Quick Draw Tools with 10' Cleaning Reach
- Aluminum Telescopic Wand
- Metal Brushroll with Ball Bearings
- Rubber Rear Wheels
- 14" Nozzle
- Edge Cleaning: Front and Side
- 72 dBA
- 40' Commercial Grade 3-Wire Cord
- CFM: 115*, Water Lift*: 89" *Motor
- Carpet & Rug Institute Certified - Silver
- 1 Year Comprehensive Warranty

Pro-Series Commercial Upright

CMX-CMP3N
MAP \$369.99

- Longer Life, 2-Stage 10 AMP Motor
- Clean Air System
- HEPA Filtration Standard
- Thermal Motor Protection
- Metal Handle, Cord Hook & Bottom Plate
- Commercial-Grade Glass Filled, ABS Polycarbonate Brush-Roller with Ball Bearings
- 4 Rubber Wheels with Brass Bushings
- 14" Nozzle w/ Front & Side Edge Cleaning
- Automatic Height Adjustment
- 6.5" Pigtail with (2) 30' Commercial Grade Cords
- Clear, Riveted Bumper Guard
- On/Off Switch On Body
- Reinforced Front Panel Latch System
- 79 dBA
- CFM Average: 54 - Water Lift: 74"
- Carpet & Rug Institute Certified - Silver
- 2 Year Motor, 1 Year Comprehensive Warranty

Pro-Series Commercial Uprights

Pro-Series Commercial Upright QD

CMX-CMP3QD
MAP \$449.99

- 10 AMP 2-stage Capped Motor
- Clean Air System
- HEPA Filtration Standard
- Thermal and Pressure Activated Motor Protection
- Metal Handle, Cord Hook and Bottom Plate
- Quick Draw Tools with 12' Cleaning Reach
- Aluminum Telescopic Wand
- Metal Brushroll with Ball Bearings
- 4 Rubber Wheels with Brass Bushings
- 14" Nozzle with Riveted Bumper Guard
- Metal Pivot Point
- Automatic Height Adjustment
- 6.5" Pigtail with (2) 30' Commercial Grade Cords
- CFM Average 107*, Water Lift*: 110" *Motor Only
- Carpet & Rug Institute Certified - Silver
- 2 Year Motor, 1 Year Comprehensive Warranty

Pro-Series Zero Commercial Upright

CMX-CMPSQDZ
MAP \$499.99

- Lifetime Belt Protection
- 12 AMP Capped Motor
- Clean Air System
- HEPA Media and Granulated Charcoal Filtration
- Thermal and Pressure Activated Motor Protection
- Ergonomic Looped Handle with Integrated Cord Clip
- Metal Handle Tube, Cord Hook and Bottom Plate
- Quick Draw Tools with 12' Cleaning Reach
- Aluminum Telescopic Wand
- Metal Brushroll with Ball Bearings
- 4 Rubber Wheels with Brass Bushings
- 14" Nozzle with Riveted Bumper Guard
- Metal Pivot Point
- Automatic Height Adjustment
- 6.5" Pigtail with Two 30' Commercial Grade Cords
- Less than 70dBA
- CFM Average 107*, Water Lift*: 110" *Motor Only
- LEED Qualifying, ETL Approved
- Carpet & Rug Institute Certified - Silver
- 2 Year Motor, 1 Year Comprehensive Warranty

Commercial Backpack

Commercial Backpack

CMX-CMBP
MAP \$369.99

- 10 AMP Motor
- Thermal Motor Protection
- HEPA Media Filter Standard
- Curved Aluminum Wand
- 7 Full Size Tools Included
- New & Improved Ergonomic Comfort Straps
- 50' 3-Wire SJT Cord with Tools-Free Replacement
- CFM Average: 110*, Water Lift*: 110" *Motor Only
- 69.5 dBA
- 11.5 lbs
- Carpet & Rug Institute Certified - Gold
- LEED Qualifying, ELT Approved
- 1 Year Comprehensive Warranty

WHAT DO CRI RATINGS MEAN?

You dine at five-star restaurants, see movies that received two thumbs up, and tend to listen to musicians who top the charts. So why not check the ratings on vacuums, too?

While the dirt on the carpet surface is what gets noticed, it's the deeply-embedded dirt that causes premature carpet wear. Don't just guess that your vacuum is removing this dirt—turn to the experts. The Carpet and Rug Institute (CRI) has developed a number of tests to identify top-notch vacuums that protect your carpet investment.

HOW DO VACUUMS RECEIVE A CRI RATING?

Vacuums with the CRI Seal of Approval must pass a number of tests to ensure they are cleaning effectively and leaving carpets undamaged during vacuuming.

- **Soil Removal:** Vacuums must remove a substantial amount of dirt from carpeting.
- **Dust Containment:** Dust must remain trapped and unable to re-enter the air after cleaning to ensure the indoor air quality isn't negatively affected by vacuuming.
- **Surface Appearance Change:** Carpeting must be undamaged after repeated vacuuming.

If a vacuum cleaner passes these tests, it receives a CRI Seal of Approval, but it's not a simple pass or fail system. A vacuum that passes the Carpet and Rug Institute's stringent tests is then ranked gold, silver or bronze based on its combined scores on these tests.

**LEED
Qualifying**

WHAT DOES LEED QUALIFYING MEAN?

The U.S. Green Building Council developed the Leadership in Energy and Environmental Design (LEED) program to encourage greener construction and maintenance of homes and other buildings. How does this apply to vacuums? By using a LEED-qualifying vacuum cleaner, building owners can earn credits toward their LEED building rating.

LEED-qualifying vacuums must have a CRI seal of approval. They must also have rubber bumpers and an ergonomic design that minimizes vibration and noise during use. But it's not just sound that's important; cleaning is key to creating and maintaining healthy environments. Therefore, another critical aspect is filtration to ensure the vacuum has a positive effect on indoor air quality.
