

Hybrid-Thermic® heat is like bringing home the warmth of the sun. It heats quickly and evenly while staying cool to the touch. Heat Surge Hybrid-Thermic heat technology safely heats a room faster and more effectively than typical space heaters. That's because it uses the same kind of heat energy as the sun, the far infrared rays of the light spectrum. Though invisible, this heat energy can be felt every day when standing in the sunshine. This new advanced heating system warms more than just the air, it heats objects like furniture, walls and people for a warm and comfortable home.

All fireplace units ship as free freight to the contiguous United States.

Top Heat Surge Products

Roll-N-Glow Units

Roll-N-Glow Features:

This is the revolutionary, brand new 2019 Touch Screen Roll-n-Glow. It's everything you love about the Heat Surge fireplace now with all of our most popular features in one stunning piece of furniture. Plus it's the first-ever portable fireplace that acts as a high-performance Air Purifier that instantly cleans and purifies the air.

Help your family breathe easier this winter with this easy-to-install filter attachment for your Heat Surge Electric Fireplace. It's magnetic frame snaps in place of the air intake at the back of the heater to help capture household dust during operation. Upgrade to our Micro-Allergen filter for our highest level of purification. The Micro-Allergen filter pack scrubs indoor air of germ filled particles like: Pollen, Dust Mite Debris, Mold Spores, Pet Dander, Household Dust, Smog, and Smoke.

It knocks out high heat bills through its powerful and revolutionary Hybrid-Thermic® micro-furnace and heat exchanger that heats any room floor to ceiling, head to toe even when the home thermostat is turned way down.

The Hi-Def Fireless Flame® technology also provides the stunning visual of a realistic fire powered by energy-efficient and maintenance-free LED's. The Roll-n-Glow provides great maneuverability with its built-in wheels, which enables you to quickly move your fireplace from room to room, thereby lowering your heating bills and saving money using zone heating in style.

• Measuring just 24.25" high, 29.25" wide, and 9.5" deep • 1500 Watts • Remote Control

Power Tower Features:

The versatile Accent Power Tower Fireplace can double as an end table, nightstand or foyer accent table. This innovative design is space saving as well as practical so it also works well for smaller-scale living like apartments, vacation homes, RVs, mobile homes, retirement communities, condos or anyplace that could use the bone-soothing heat and ambiance of a fireplace. Plus it's the first-ever portable fireplace that acts as a high-performance Micro-Allergen Air Purifier that instantly cleans and purifies the air. This fireplace has a classic style that blends well with any home decor just like all Heat Surge fireplaces. The Accent Power Tower's versatile and lightweight design makes it great for zone heating which enables you to quickly move your fireplace from room to room, thereby lowering your heating bills and saving money.
